

# AIRBALTIC INVITES TO A UNIQUE TECHNICAL DEPARTMENT OPEN DAY

News / Airlines, Maintenance / Trainings

**airBaltic announces a unique Behind the Scenes Technical Department event on April 25, 2024 in its technical facilities in Riga—an unprecedented opportunity for professionals across various technical fields to explore the aviation industry from the inside and for those considering new career opportunities. This initiative is designed to attract individuals from diverse technical backgrounds, including civil engineering, transportation, vehicle mechanics, and more, offering them a unique glimpse into the airline's daily operations in its modern hangar and encouraging them to consider joining the airBaltic team.**

Al?na Aronberga, Senior Vice President Human Resources at airBaltic commented: “As airBaltic continues to grow, we are delighted to announce our upcoming Behind the Scenes Technical Department event at airBaltic. For the first time, we are offering this unique opportunity for individuals from diverse technical fields and students who are exploring future career path to experience a day in the life at the airlines technical department in our impressive Concors Hangar. We have prepared an exciting program and eagerly anticipate welcoming everyone who is interested to come under our wing.”

The open day at airBaltic is scheduled for April 25, 2024, starting at 17:00 at the airBaltic technical facilities in Riga, Latvia (Tehnikas Street 3, Marupe County, Riga district). To attend the Behind the Scenes Technical Department event at airBaltic, please register here: <https://forms.office.com/e/p8DQp9cRkn>

This year, airBaltic plans to hire more than 100 professionals in 40 positions within its Technical department.

airBaltic currently employs more than 2 500 professionals and is actively recruiting for various positions. The airline currently offers 33 open positions to attract over 150 new talents. For several years, airBaltic has been consistently recognized as the Top Employer in various nationwide and worldwide surveys.
