

5 HURT ON BUMPY AMERICAN AIRLINES FLIGHT TO MIAMI

News / Airports / Routes

American [Airlines](#) officials say five passengers were injured on a flight from Grenada to Miami after the plane encountered some unexpected turbulence.

American's Flight 982 landed at Miami International Airport shortly before noon Thursday without incident. Five passengers were taken to a hospital for minor injuries.

The airline said in a statement that the seatbelt sign was on at the time and that pilots had no indication of severe turbulence in the area.

The Miami Herald (<http://tinyurl.com/o8dgfl8>) reports the plane carried 74 passengers and a five-member crew.
