

GENEVA AIRPARK FOR EFFICIENT STOPOVERS AT GENEVA AIRPORT

News / Business aviation

Welcome, parking, services: Geneva Airpark offers leading solutions for the care of business aircraft in Geneva. Whatever the length of your stay in the Swiss city, your jet and its crew will always benefit from:

- More organizational efficiency thanks to dedicated in-house experts

When you use Geneva Airpark, you will be allocated a dedicated contact who will coordinate all stages of the stopover. The in-house team of qualified specialists, certified PART-145 for line maintenance operations will take care of your aircraft in a high-performance infrastructure.

- Aircraft protection for more operational efficiency

It's vital that your aircraft is always 100% operational. By sheltering your plane in the secure and heated hangar, you avoid the setbacks, delays and costs of unforeseen damage on electronic components, paint, etc. and maintenance operations, due for example to bad weather conditions

or Foreign Object Debris (FOB).

- More flexible scheduling for parking your business jet

Whether it's for just for a few hours, a day or longer, and even if you book at the last minute, Geneva Airpark always has a solution for welcoming and securing your executive jet.
