SPECIAL EBACE FOR TYROLEAN JET SERVICES

News / Business aviation, Events / Festivals

Austrian business operator Tyrolean Jet Services (TJS) is a permanent exibitor at EBACE since 2003. Over the years TJS planes were repeatedly presented on static display exhibition.

Martin Lehner told that TJS team at EBACE 2016 was represented by 12 employees. This year the presentation was almost gastronomic - offering guests original prosciutto,parmesan and drinks from the Emilia-Romagna region. The reason is simple. March 2016 Tyrolean Jet Services (TJS) received San Marino AOC and has created a new subsidiary TJS San Marino, which is 100% owned by Tyrolean Jet Services Group. The operator's certificate and the new company introduced the first business jet - Gulfstream G650 (T7-AZG).

Tyrolean Jet Services is on the market since 1978. In the beginning it was a Swarovski corporate flight department, which later became an independent business structure.

For a charter flight there are many options to choose from: two ACJ319, one ACJ318 ER, Bombardier Global Express, Gulfstream G550, Cessna Citation VII and Beechcraft King Air 200GT. A few more aircraft are managed by the operator, including the flagship Gulfstream G650.

"Our philosophy makes us different comparing to our colleagues. We are quite open, if you want – humane in doing business do business. All of the company's customers are respectable people, and our reputation - the trump card of the company. ", - t*he head of the Tyrolean Jet Services Martin Lehner*.
