

# UAS INTERNATIONAL TRIP SUPPORT SEES RIPE OPPORTUNITIES IN ASIA PACIFIC FOR BUSINESS AVIATION

News / Business aviation

**UAS International Trip Support is enthusiastic about the whole of Asia. With UAS every aspect of a client’s journey is taken care of. Offerings include flight support, ground handling, fuel, risk mitigation, international emissions and tax compliance, aircraft sales, aviation technology, and travel solutions. Dubai-based UAS has also enhanced its air charter activity with the addition of a Bombardier Global Express, available for third party charter, well placed for serving the Asia Pacific market, along with aircraft sales solutions. In recent months, the Global Express has been in high demand in Asia, with charters to India, Sri Lanka, and Thailand.**

Omar Hosari, UAS Founder and CEO commented: “Specifically Southeast Asia; India and into Australia, with new airports being built, significant increases in flight activity, supported by growing numbers of UHNWIs, infrastructure investments and tourism,” commented Omar Hosari, UAS Founder and CEO. The Asia-Pacific business jet market experienced fast growth in 2024 with a 12.5% increase. Locally, business aircraft departures from Singapore’s Changi and Seletar airports in 2023 rose by almost 28% over the past five years. Accordingly, regional operators are demanding reliable trip support that enhances efficiency and ensures consistent operational excellence. UAS provides that with a wide range of customized aviation solutions. Our 25 years of experience and reputation for reliability have earned us the trust of aviation professionals across the world. As the APAC market continues to grow, we are perfectly placed to support the needs of

this dynamic region with the same level of dedication, quality, and operational excellence that has defined UAS for decades. We are in Singapore to meet with operators, existing and future customers, to highlight that UAS is the most reliable way to move through the air, in APAC and beyond.”

On the ground, the UAS Global Network of VIP Supervisors stretches across the globe’s key travel hubs - in China, Malaysia, Sri Lanka, Australia, the UK, Mainland Europe, the US, Middle East, Africa, and Latin America. UAS Supervisors can relocate to any airport to optimise the safety and efficiency of operations. UAS is known for its personalized and meticulous approach, ensuring every flight they support operates smoothly, efficiently, and in full compliance with regulatory requirements.

UAS’ team in China is based in the 24/7 operations centre in Beijing, supported by UAS other operations centres in Dubai and Houston. This team focuses on delivering exceptional service for the growing APAC business aviation market, ensuring that clients in the region receive the same reliable and high-quality services UAS is known for around the world.

UAS’s commitment to innovation and client satisfaction is evident in the company’s ever-expanding list of aviation solutions. Whether it’s a corporate jet, commercial flight, or any other aviation requirement, UAS is equipped to handle it with precision and care. Clients worldwide rely on UAS for smooth and seamless flight operations.
