

AIRWAYS AVIATION GROUP LAUNCHES AIRWAYS AVIATION CHINA

News / Maintenance / Trainings

During Pilot Expo in Berlin, Airways Aviation Group formally signed the launch of Airways Aviation China, to be based in Hainan, and in partnership with Elmos Consulting. The partnership will start with the launch of a Foundation School where aspiring pilots can get their first experience into aviation, getting a tailored and strict assessment. It will also support trained pilots under EASA (Europe) or CASA (Australia) to renew or keep their ratings valid. Following step will see the partnership evolve to an EASA ATPL ground school and examination centre and offer an array of other services.

Alexandre Alves, Global COO & CCO Airways Aviation Group, commented: “We have started talking with Elmos Consulting last year and the long discussions we had during the period made us believe we share a lot of the same goals and vision. Elmos Consulting is a company focused in offering pilots and aspiring pilots the best possible solutions and they do it with the highest quality

and international standards. A young team lead by a great airline pilot, Junfei Lu, that we are happy to integrate into our network. We expect to launch the first Foundation Course during March 2024 and additional pilot training services throughout the year.”

Junfei Lu, CEO Elmos Consulting (airline pilot), said: “As China's premier pilot service provider, Elmos Consulting is dedicated to fostering success for pilots worldwide. Leveraging our extensive experience in servicing professional airline pilots, we are honoured to introduce the Airways Aviation Foundation Course to China as well as all Airways Aviation services to the industry. Airways Aviation Foundation Course offers flight enthusiasts and aviation students the opportunity for rapid learning in professional aviation, assisting them to master aviation knowledge while providing an affordable professional learning channel. This innovative program not only accelerates aviation theory learning but also provides a cost-effective pathway for enthusiasts to embark on their aviation journey. In parallel, we will be able to assist all B2C and B2B customers who wish to have pilot training. We are sure this is just the beginning of a long and fruitful partnership.”

Anyone interested in additional information, should contact Airways Aviation China:
