

EXPANDED ROLLS-ROYCE SERVICES INFRASTRUCTURE FOR BUSINESS AIRCRAFT

News / Maintenance / Trainings, Manufacturer

Warm welcome to the latest member of the ASC network for CorporateCare® customers - Bombardier's Tianjin Service Centre!

Its is a logical expansion of Rolls-Royce services infrastructure for business aircraft. The global Authorised Service Centres network forms an essential component of Rolls-Royce's services portfolio for business aircraft and adds to its existing global aftermarket capabilities. Rolls-Royce has 76 ASCs with key maintenance providers worldwide allowing for rapid response times to meet its customers' needs.

Bombardier's Tianjin Service Centre supports the BR710A2 engines, which power the successful Bombardier Global Express, Global Express XRS, Global 5000 and Global 6000 aircraft.

The powerful service infrastructure of the ASC network is complemented by On Wing Service specialists in the USA, Europe, Middle East and Asia as well as a number of spare parts, lease engine storage locations, all placed strategically around the world. Recently Rolls-Royce opened a new store for business aviation parts in Beijing to support its

growing customer base in Greater China and Asia-Pacific.

Andy Robinson, Rolls-Royce, SVP Services - Business Aviation, said: “As the leading engine supplier in business aviation we power more than 3,000 aircraft worldwide, of which more than 400 are based in the Asia-Pacific region. Our powerful network of strategically placed Authorised Service Centres worldwide ensures we deliver outstanding levels of in-service support.

“The newly introduced CorporateCare Enhanced aftermarket service covers an even wider range of support items for our engines, including maintenance for the nacelle, engine build-up and thrust reverser unit-related services for the Pearl®15, BR710 and BR725,” he added.
