

FLITETEC APPOINTS FL TECHNICS AS AN EXCLUSIVE REPRESENTATIVE IN EUROPE AND THE CIS

News / Maintenance / Trainings

FL Technics, a global provider of one-stop-shop aircraft maintenance, repair and overhaul services, has announced having signed an exclusive distribution agreement with Flitetec, an aircraft interior plastics manufacturer. As per contract, FL Technics shall represent the UK-based company in 21 countries across Central, Eastern Europe and the CIS.

As the sole representative of Flitetec in Russia, Armenia, Azerbaijan, Belarus, Estonia, Georgia, Kazakhstan, Kyrgyzstan, Latvia, Lithuanian, Moldova, Slovakia, Tajikistan, Turkmenistan, Ukraine, Uzbekistan, Poland, Hungary, Bulgaria, Romania and Czech Republic, FL Technics will provide operators and MROs with quality non-structural vacuum formed plastic mouldings and assemblies for passenger and crew seats, covers, work stations, interiors screens, panels, etc.

“We already see an interest in Flitetec production from our long-standing partners and clients. Current backlog for aircraft seating from the various manufacturers is close to an all-time high, thus the need for alternative quality providers is also on an upward trend,” explains Julius Bogusevicius, Head of the Components and Materials Sales Department. “Having a partner with over 30 years of experienced in the field, we are confident that our clients in Central, Eastern Europe and the CIS will surely enjoy some quality materials at a competitive price from an industry-wide trusted brand.”

In addition to Flitetec, FL Technics already represents such manufacturers as HEICO, Seal Dynamics, Aviointeriors, Future Metals, Dedienne Aerospace, NYCO, Semmco and others. The MRO is part of Avia Solutions Group family – an international, publicly traded aviation holding company with over 20 subsidiaries worldwide.
