FIRST AAV E-PORT TO BE BUILT BY EHANG

News / Business aviation, Manufacturer

EHang Holdings Limited announced its intention to build the world's first E-port for AAV services. EHang will cooperate with a local partner in the City of Hezhou in Guangxi Province, China, to build the E-port, which will accelerate the commercialization of EHang AAVs in the tourism industry. The city of Hezhou is a pioneer in air tourism, and this project will make it model for air tourism innovation around the world. The E-port is planned to be completed and operational by the end of 2020.

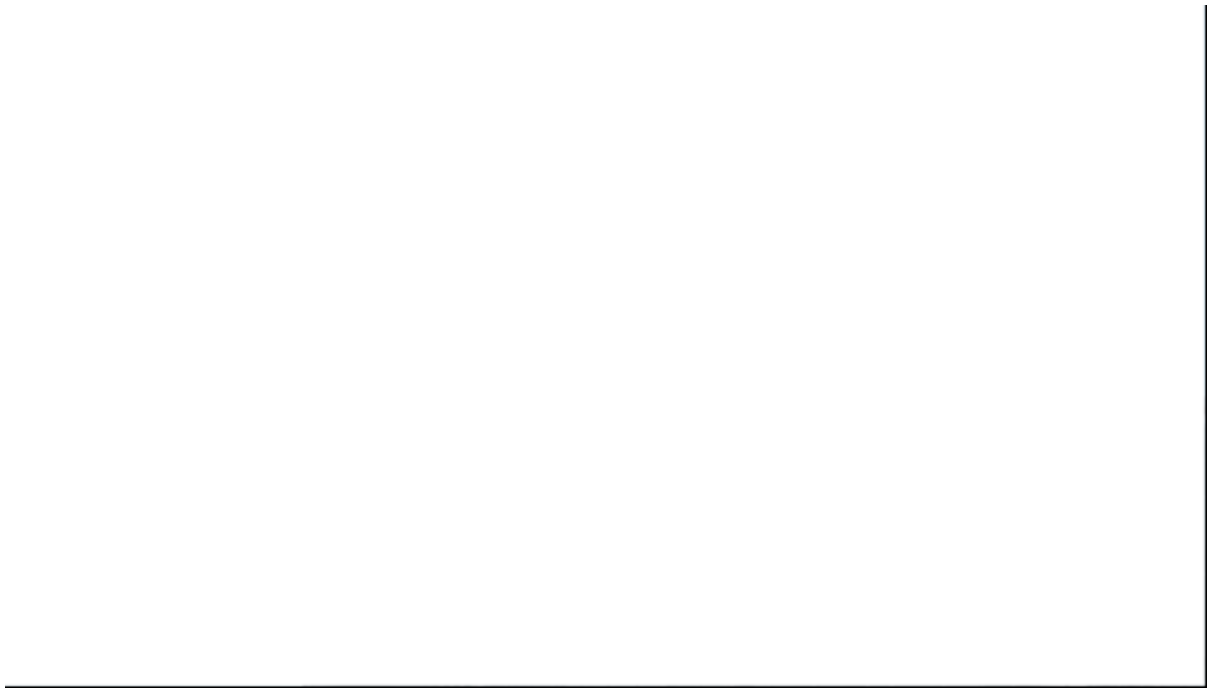
The plan includes the delivery of 20 units of the EHang 216, the Company's two-seat passenger-grade AAV, which will be deployed for aerial sightseeing.

The E-port terminal building will be three stories covering 2,500 square meters. Architectural features include a first floor reception hall, second floor passenger waiting area, and a third floor departure/arrival zone. Four landing pads will be located on the roof-top, which can accommodate the landing/take-off of four AAVs simultaneously.



The combination of EHang's AAV technology and the natural tourism resources of Hezhou can promote and enhance Guangxi's air tourism industry not only in Hezhou, but also in other cities in the province.

"Hezhou is a beautiful city with rich tourism resources and we are excited to enhance their appeal
