The version of the SBJ designed for RTAF has three sections differing in comfort level: a 4-seat VIP area, a 6-seat business class area, and a passenger compartment for 50 people. The aircraft ensure maximum passenger comfort, including communication and Inflight-Entertainment systems.

The SBJ's flight range is over 4500 km. The aircraft, including the interior, were assembled in Russia. In-service maintenance support for the RTAF jets will be provided in Thailand.
